Emotional Journeys x Digital Transformation x AI Building x Team Empowerment

Emotions Drive Business. Technology Scales Them. People Deliver Them.

With 15 years of experience at the intersection of Luxury Strategy, Guest Experience, and Deep Tech, I help organizations create seamless, high-touch journeys that feel human but run on smart, scalable systems. My unique value? Translating complex business goals into emotional realities, powered by digital innovation and AI tools, and delivered by empowered teams.

I specialize in sectors where the user experience is critical: Luxury, Retail, Hospitality, Health, and Tech. I orchestrate 360° ecosystems and innovative experiences for iconic houses like Boucheron, Chopard, Pierre Hardy, Longchamp, L'Oréal, Accor, and more.

Experience & Innovation: From reimagining the guest flow of a 2-Michelin-star restaurant to launching immersive concepts from scratch (Jayu, 14/20 Gault&Millau).

Digital & AI: Leading digital transformations and facilitating strategic AI workshops to identify high-impact use cases.

My focus: implementing AI where it truly serves the business and employees, ensuring technology amplifies human potential

Leadership & Mentoring: Scaling high-performance creative teams, fostering cultures of psychological safety, rapid iteration, and excellence.

Thought Leadership: Keynote speaker at Grandes Tables du Monde 2024 ('Make Your Guest Cry') on mastering emotional peaks in hospitality.

My obsession: Operational Excellence fueled by Emotion. **My goal:** To create efficient, responsible, and genuinely human experiences. No fluff, just tangible impact.

WORK EXPERIENCE

Co-Founder & Lead Methodologist Niels

Niels - Since February 2024

- ▶ *Transforming complex emotional design methodologies into an accessible, AI-assisted SaaS platform. Niels acts as an embedded 'Lead Designer' for organizations lacking in-house expertise, guiding them to orchestrate high-impact guest journeys autonomously.*
- ▶ **Built the "Niels" Method:** Created a proprietary Emotional Design framework now scaled via an AI-powered platform, enabling non-experts to orchestrate high-impact guest journeys autonomously.
- ▶ **AI-Assisted Strategy:** Developed smart workflows that guide teams through emotional touchpoint mapping and concept iteration, reducing design time by [X]% while increasing emotional resonance.
- ▶ **Democratizing Excellence:** Positioned Niels as the "pocket Lead Designer" for scale-ups, bridging the gap between high-level brand strategy and on-the-ground experience delivery.

Design Principal - Europe Middle East South America

Boston Consulting Group - June 2019 to November 2024

- ▶ *Leading the Experience & Strategic Design team, delivering high-impact transformations across key sectors including Public Sector, Deep Tech, Finance, and Healthcare. Acted as the bridge between C-suite strategy and human-centric execution for complex, regulated environments.*
- ▶ **Orchestrating Complex Journeys:** Redesigned end-to-end service flows for major public institutions and financial entities, transforming rigid regulatory constraints into seamless, accessible, and emotional user experiences. Deep Tech & Beauty Innovation: Reinvented the innovation process for a global Beauty leader, integrating deep-tech capabilities to accelerate concept development and enhance consumer engagement.
- ▶ **Social Impact & CSR:** Designed humanitarian digital tools for NGOs and CSR programs, focusing on accessibility for vulnerable populations and driving ethical responsibility through innovative social programs.
- ▶ **Team Scaling & Culture:** Grew the local design practice from 2 to 10+ experts, establishing Paris/Casablanca as a key delivery hub. Fostered a culture of psychological safety, mentoring juniors into senior roles (5+ promotions).
- ▶ **Change Management:** Guided large organizations through operational shifts, ensuring frontline adoption of new digital tools by aligning internal stakeholders from C-level to operations.
